

Paintless Dent Removal Kit 466023

Known as PDR, this kit (with training) can successfully remove typical car park dents from metal panels where you have rear access.

The process uses specially designed tools to massage the metal back into it's original form.

All our tools are custom made in house ensuring the correct material is selected to suit the intended purpose of the tool.

Items included in the kit

- 23 Custom Made PDR Tools
- Bonnet Prop
- Door Jammer
- Fibre Punch
- PDR Shield
- PDR Lamp 12v
- Window Wedge
